MINI COT on the move

NATURAL COMFORT

wherever you go

Rest is essential for your baby. If he falls asleep while strolling, the FACE carrycot transforms into a cozy mini cot, where every dreamy moment becomes synonymous of tranquility and comfort. This is possible thanks to its soft structure (plastic-free), its smooth, breathable fabric and its base made of recycled wood. These elements combine to create an ideal natural environment for the baby. Furthermore, it includes the softFRESH comfort viscoelastic mattress, which adapts to the baby's shape, avoids the risk of plagiocephaly and is thermoregulatory thanks to the incorporation of "graphene" particles, designed to absorb and dissipate heat. Likewise, its "tencel" fabric and "3D mesh" provide breathability and its microperforated foam helps prevent the risk of suffocation, thus guaranteeing a safe environment for your baby's healthy rest.
