

TRAMA®

Quality nursery furniture

PREVIEW
2017

TRAMA®

The **Bébécár Group** is a multinational company with over **50** years experience in manufacturing baby products. We employ at present over 550 people within 50.000 m2 of covered space, using the latest technology and producing high quality articles, which comply with the highest safety standards.

Trama, a company of the Bébécár Group, presents its latest nursery furniture new releases: cots, cot beds, wardrobes, chests, dresser-baths and accessories.

Trama guarantees the quality of its products with a thorough control of the production processes. **Trama** is a certified company according to **ISO 9001** Quality System and internationally known through **IQ Net**.

In addition to all these procedures, **Trama** takes care of every single detail to provide your baby with high quality materials, the development of products with unique designs and certified in compliance with the most demanding European safety standards for children. **Trama's** top priority is baby's comfort and safety.

Trama fulfills its responsibility regarding the proper management of packaging and packaging waste, having joined the Integrated Packaging Management and obtained the Green Dot.

Trama has its own After-Sales Service department at your disposal for any questions or inconvenience that may arise.

Trama ensures the commitment of service after the purchase of its products.

Quality nursery furniture PREVIEW 2017

Classic

Ranges	page	technical table
Belle	04	17

For added security all products are manufactured with non-toxic paints and varnishes and present no sharp edges.

The stability of our furniture is guaranteed with a specific security system to prevent accidental falling.

Trendy

Ranges	page	technical table
Advance	06	18
Chocolate	08	19

Adjustable three-position base to accommodate the growing baby. Made from solid plates of wood to provide baby with a comfortable rest.

All cots are fitted with an easy to use single-handed dropside with a double safety device. The locking system featured in the dropside is automatically operated, when in the open and closed position, in compliance with the **EN716: 2008 + A1: 2013** standard.

Basic
